

Brooks School Schedule 2020 – 2021

Continuous Learning Plan (CLP)

Core Principles:

- The schedule remains the same for on-campus, concurrent and fully online learning.
- The schedule prioritizes the physical health and mental wellness of the Brooks community in a range of time zones.
- The schedule prioritizes community engagement through Chapel, advisory, club, affinity and school meeting times.
- The schedule prioritizes best teaching and learning practices with dedicated small-group skills instruction.
- The schedule maintains our commitment to providing students with a meaningful educational experience through an individual academic schedule that meets them where they are.

Highlights:

- The weekly schedule contains seven academic blocks in a six-day schedule that easily shifts to a five-day schedule as needed.
- Each course has four scheduled class meetings each week. Students are scheduled into three out of the four class meetings.
- For each course, students attend two **Concurrent** class meetings and one **Skills** class meeting per week.
- The fourth class meeting is a free for the student and will not appear in their OnBrooks schedule.
- Each student will meet with their teacher three times per week, and ideally, at least two of those meetings will take place in person.

- The entire class roster attends two **Concurrent** classes a week. Depending on classroom size and the size of the class roster, half of the students may need to participate online in order to adhere to physical distancing guidelines.
- Students will rotate concurrent online attendance as assigned by the Academic Office.
- **Concurrent** classes are intended for subject matter instruction and the introduction of new material and content.

- Each student will also attend one **Skills** class a week. Depending on the size of the class roster, half of the students may be assigned to each **Skills** class to allow for a smaller student-to-teacher ratio.
- **Skills** classes are intended for skill-based work, work on long-term assessments, collaborative projects, individual feedback, laboratory activities, etc.
- Both **Skills** meetings in a given class will meet before another concurrent meeting takes place to support class continuity and unity.

- **Example:** A student is scheduled to take English in A block. They will meet for **Concurrent** classes with their entire class on Monday morning and Friday morning, once in person and once online. They will be assigned to a **Skills** class on either Thursday morning or Thursday afternoon, and they will have a free period during the other **Skills** class.
